

E-waste Management

*Together towards creating
better environment*

About SEA Movement

We are a grass-root level non-profit organization working in the area of Environmental sustainability. SEA Movement expands to Save Earth from Anthropogenic Movement. We advocate mitigation through change in Humans' lifestyle and advocate adaptation to climate change through soil and water conservation.

Our Mission

Work towards sustainability by creating change agents & change agencies at individual, organizational & community levels.

Our Vision

Sustainable future through coexistence and sustainable actions.

Our Objectives

- Preparedness through planning to manage the effects of climate change
- Right understanding of co-existence
- Collective action and Solidarity

About E-waste Management

78% e-waste enters landfills causing leaching of toxic chemicals in lands and waterbodies, only **22 %** e-waste are properly recycled.

Why manage e-waste?

- Nearly 95% of e-waste that are disposed are handled by unorganized sector for dismantling and recycling.
- Thousands of young children are involved in the unsafe recycling process.
- Improper recycling results in landfill, pollutes air, water and damages the environment.

Advantage of properly disposing e-waste

- Reduces landfill space
- Saves natural resources
- Reduces green house gas emission

e-waste needs to be properly disposed of and environmentally sound managed to avoid toxic chemicals entering into landfills or water bodies.

Our E-waste Support

India ranks 3rd place in generating electronic waste items with only 468 authorized dismantlers / recyclers across 22 states.

Our role

- We organize collecting e-waste from individuals, corporate(s), institutions, businesses.
- We ensure the collected e-waste is properly recycled and efficiently managed with our recycler partners.
- Support with EPR certifications for bulk consumers.

How you can participate?

- Donate us the e-waste generated at your office.
- Organise an e-waste collection drive with your employee participation.
- Keep a bin to collect e-waste in your work campus.
- Partner with us for creating awareness and to implement e-waste collection activities.

E-Waste Materials

All e-waste donations will be collected as a token of your contribution towards climate change and sustainability, and safely managed with the help of authorized and efficient recyclers! The e-waste collected is used as revenue generation model to continuously run the climate action activities.

ACCEPTABLE E-WASTE ITEMS

OFFICE DEVICES

Computers,
Monitors,
CPU's,
UPS,
Mouse,
Keyboards,
Scanners & Printers,
Telephones

HOUSEHOLD ITEMS

TV,
Washing Machines,
Mixers & Grinders,
Air Conditioner,
Refrigerators,
Geysers,
Iron Box & Wall Clock
Audio Systems & DVD

STORAGE DEVICES

Batteries and hard disk*
(*secure data destruction)

Other electrical items like old
cables and motors

PERSONAL DEVICES

Mobile Phones,
Earphones,
Tablets,
Chargers,
Laptops,
Power Banks,
Smart Watches
MP3 Players
